

HYMER

HYMER Motor Caravans 2020

WE MAKE YOUR HOLIDAY.

OUR EXPERIENCE PUTS US AHEAD OF OUR TIME.

When Erwin Hymer and Erich Bachem built their first caravan in 1957, they dreamed of forever changing the experience of travelling. With this early caravan, they opened up a completely new kind of holiday for hundreds of thousands of tourists and created the future of motorhoming. Even today, their dream is still alive. When

building each new HYMER, we draw on our experience and expertise to create a vehicle that is just as forward-looking as the first caravan over 60 years ago.

1957

Erich Bachem ("ERIBA") and Erwin Hymer build the original "Troll", the first caravan.

1978

The innovative PUAL body shell is developed and sets new standards when it comes to stability.

1981

The HYMER B-Class is introduced and over the following years becomes one of Europe's most popular motorhomes.

2004

In October, the 100,000th HYMER motorhome rolls off the production line in Bad Waldsee.

2011

Opening of the Erwin Hymer Museum opposite the company headquarters in Bad Waldsee.

2019

We present the new icon of our motorhome line: the Hymermobil B-Class MasterLine.

HYMER Exsis

DISCOVER THE FUTURE OF THE 3.5-TON CLASS.

The Exsis demonstrates our many years of experience in the field of lightweight construction: even when almost fully kitted out with 2 people on board, a full fresh water tank and 2 full gas bottles, there are still payload reserves of up to 450 kg depending on the layout. An all-time best in the 3.5-ton category. The exterior of the Exsis also boasts a unique design and ingenious features. Amongst other things, its aerodynamic design ensures low fuel consumption, quiet driving and a perfect view. The innovative bodywork technology endows the Exsis with excellent insulation values, stability and durability.

NEW – HYMER EXSIS

The new generation of the Exsis builds on the Fiat low-frame chassis, which is optimised for motorhomes. It impresses with a brand new interior concept and is a future-proof embodiment of the new HYMER design language. The integrated and semi-integrated models of the Exsis are available in the 580 layout.

The existing Exsis is still available with the proven combination of Fiat chassis cowl and ALKO frame in a large selection of layouts and modern furniture finishes.

Additional layouts are shown on page 52 / 53.

NEW

THE NEW EXSIS.

COSINESS IN ABUNDANCE.

Thanks to a new design and new surface materials, the living area is now even more generous and inviting.

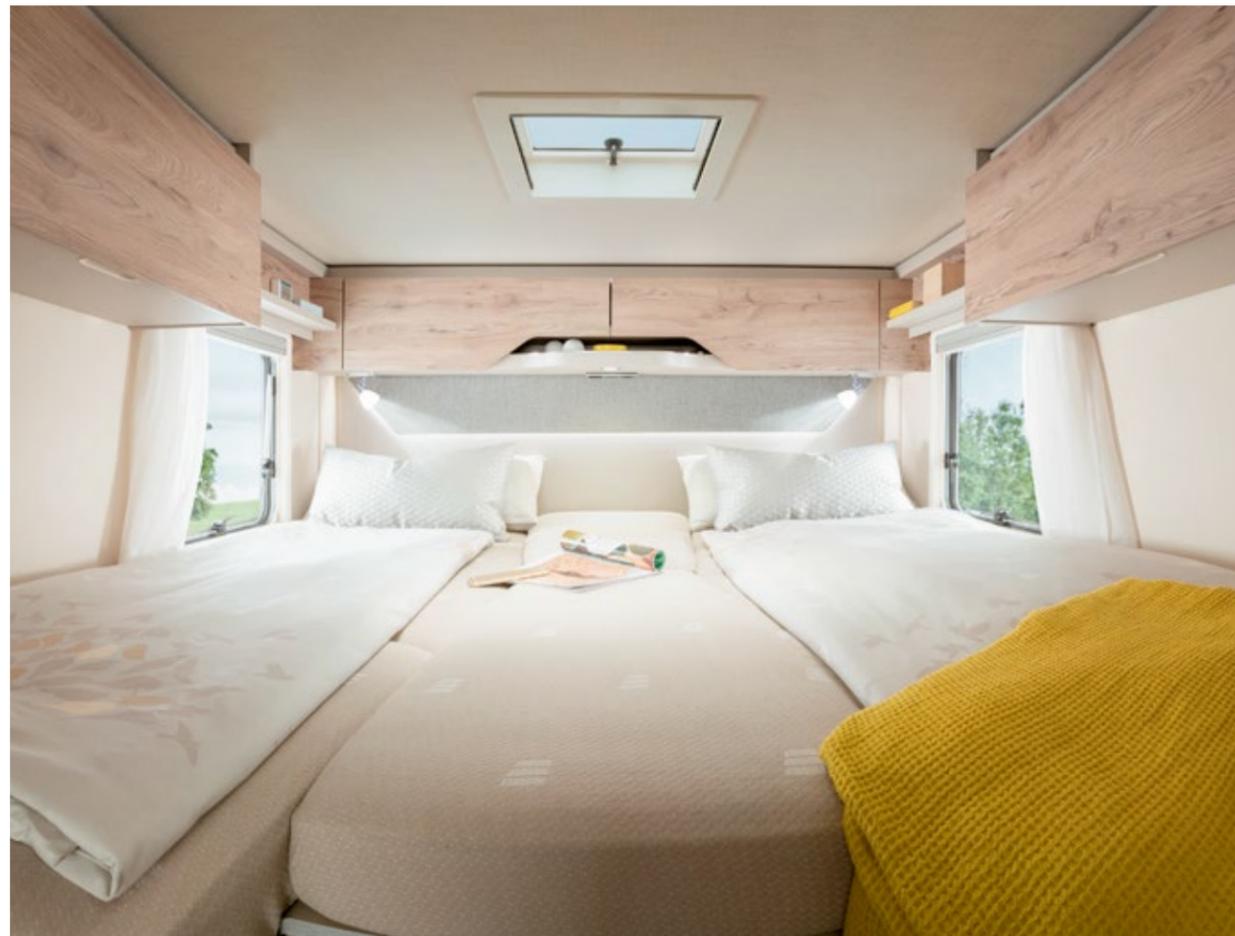

HARMONIOUSLY INTEGRATED.

The 32-inch flat-screen TV in the new Exsis is blended perfectly into a recess in the bathroom wall. This elegant solution ensures an excellent view from the driver and passenger seats.

PROFESSIONALLY PREPARED.

The new kitchen worktop creates an extremely open and generous feeling of space – thanks to a standard 142-litre refrigerator, integrated rubbish bin in the kitchen and an optimal use of space, for example by means of a practical worktop extension.

NEW

ROOM TO BE YOU.

LIMITLESS PRIVACY.

The extremely spacious comfort bathroom features a large separable shower and plenty of space in front of the washbasin unit.

PLENTY OF ROOM FOR SWEET DREAMS.

The single beds in the new Exsis can be optionally equipped with a connecting cushion between the mattresses. The numerous overhead lockers make your sleeping comfort complete. Shown here are the overhead lockers above the rear bed, which are available as an optional extra.

THE HEIGHT OF CONVENIENCE.

The extra large rear bed is easily accessible via the new, fold-out comfort steps with non-slip coating.

FEEL LIKE YOU'VE FINALLY ARRIVED.

TOTAL RELAXATION.

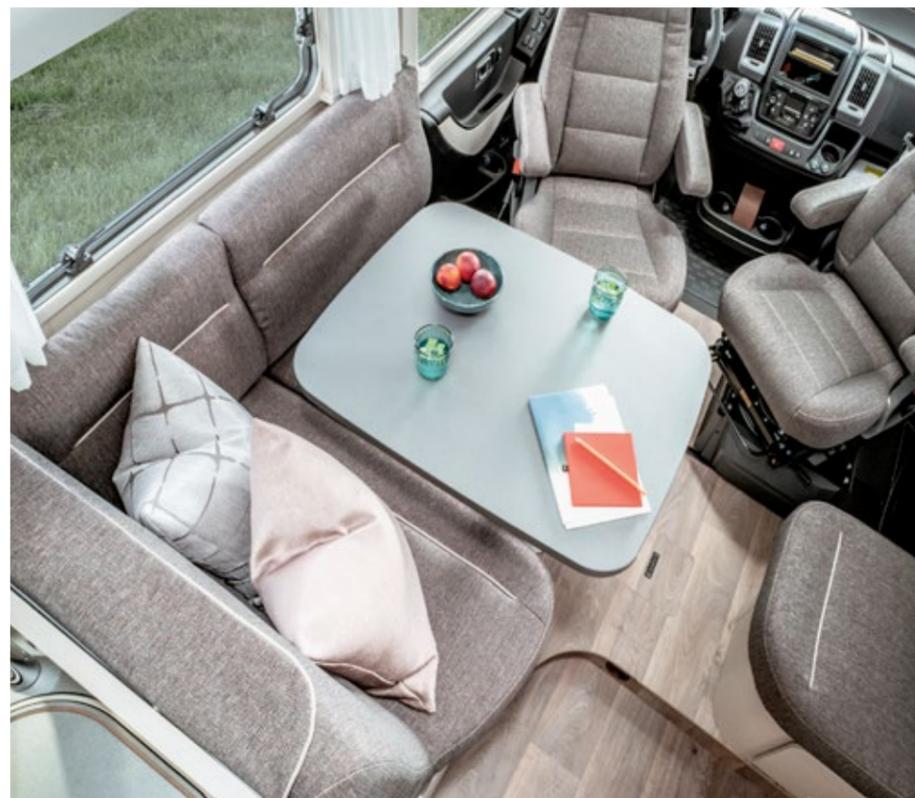

The cab is perfectly integrated into the living area for a real home-from-home feeling, as pictured here in the Exsis-t 678 with modern Sauvignon Oak furniture finish and Grazia Janeiro combination. The optional overhead lockers instead of the fold-down bed extend beyond the driver's/ front passenger doors.

JUST LIKE A HOME CINEMA.

Thanks to the optional 32-inch flat-screen TV, the Exsis creates a fabulous home cinema feeling even when on the road.

DELIGHTFUL COOKING.

A generous corner kitchen is included as standard equipment in many Exsis models. The readily accessible overhead lockers and large, flexibly partitioned drawers are a boon when pottering in the kitchen.

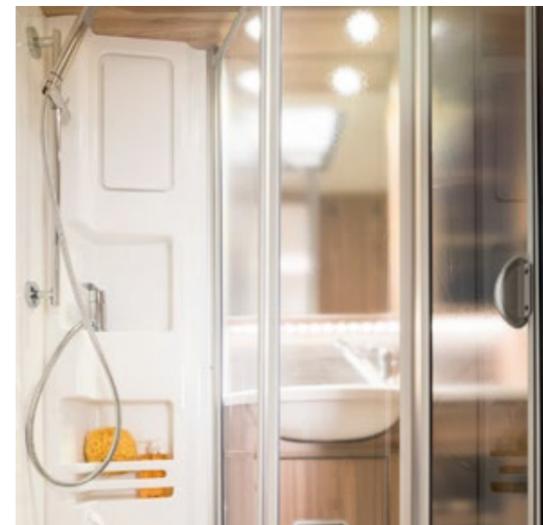

AMPLE SPACE, LIGHT AND QUALITY OF LIFE.

THE BED OF YOUR DREAMS.

The position of the fold-down bed above the cab also offers maximum freedom of movement and headroom. It offers a comfortable bed surface extending across the entire width of 1.50 m.

COMFORT BATHROOM.

The redesigned comfort bathroom with a large shower space offers plenty of elbow room, both in front of the washbasin and while showering. Generous bathroom cabinets with plenty of storage space make it easy to keep all your accessories within reach. The shelves are fitted with tensioning straps as standard to keep small and fragile items secure, even when the vehicle is in motion. The bench toilet features an ergonomic sitting position and is easy to clean.

NEW HYMER T-Class S

INNOVATIONS FOR YOUR HOLIDAY.

The new HYMER T-Class S is the first of its kind in many ways. The interior boasts a cosy ambience with modern designer touches that are typical of HYMER, a smart lighting concept, as well as a particularly generous feeling of space. It is also the first of our 3.5-ton models based on the proven and technologically superior Mercedes-Benz front-wheel drive chassis with original frame. And thanks to its straightforward handling, it is also the ideal first HYMER for everyone.

Additional layouts are shown on page 52/53.

Large garage

Garage loading capacity up to 450 kg

THROW YOURSELF INTO YOUR NEXT ADVENTURE. RIGHT AFTER BREAKFAST.

ENSURE YOU ARE IN TOP FORM.

The new kitchen worktop appears more spacious and offers improved ergonomics.

UNIQUE DESIGN.

The completely revised design is modern, straightforward and timeless. The specially designed textured surfaces and white accents ensure a unique, contemporary flair. The furniture finish of the table and countertops nevertheless radiates a charming warmth that makes working on them a pleasure.

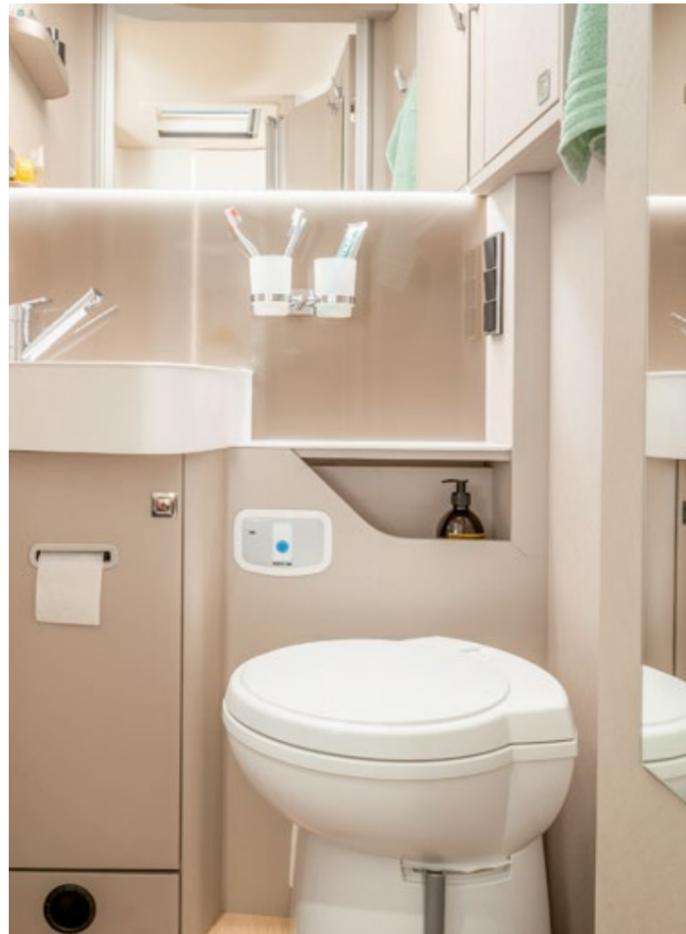

SIMPLY GOURMET.

The corner kitchen allows even greater freedom of movement. The floor-to-ceiling 152-l refrigerator is included as standard and offers enough room for all the ingredients needed to prepare even the most elaborate dishes.

HOLIDAYS WITHOUT HEADACHES.

The completely flat, stepless upper floor in the living area offers comfortable headroom of 2.05 m with a total floor area of 2.29 x 7.39 m.

DON'T DREAM ABOUT TRAVELLING. DREAM WHILE TRAVELLING.

BLISSFUL ISOLATION.

To ensure your holiday continues even while you sleep, the T-Class S is equipped with a queen-size bed with dimensions of 190 x 150 cm.

THE PERFECT TEMPERATURE, ALWAYS.

To ensure you are always nice and warm without relying on gas, the T-Class S is the first HYMER to feature a powerful diesel heater as standard.

JUST LIKE YOUR SHOWER AT HOME.

The large bathroom with 1.94 m headroom ensures plenty of space even for taller passengers. In addition, the space can be used as a passageway with the shower open, whereby the shower fittings disappear elegantly behind the folding wall.

THE SUPERIOR CLASS

*THE PERFECT CHOICE
FOR THOSE WHO DREAM
OF BIGGER THINGS.*

SUPERIOR CLASS

HYMER sets new standards in this class. Enjoy the freedom of a generous interior design concept: a cosy living area, comfy seating, a well-equipped kitchen and plenty of privacy. So you'll always feel at home, even when you're thousands of miles away.

HYMER ML-T

| Page 32

HYMER ML-T

THE ESSENTIALS ARE ALWAYS ON BOARD.

The HYMER ML-T is based on the original ladder-type frame with rear-wheel drive (also available with four-wheel drive) and an innovative lightweight construction. The result is an agile, semi-integrated motorhome that is the pinnacle of motorhome design. Comfort and convenience can be seen and felt in every detail – the level living area floor, the large seating area and the table that comes with an extension as standard, are just a few examples. The HYMER ML-T also comes with a comprehensive safety package. What's more, it boasts a range of standard features and additional comfort which are unrivalled in this class.

Additional layouts are shown on page 52/53.

THE IMPORTANT THING IS NOT WHERE YOU ARE. BUT RATHER, HOW YOU ARE.

MODERN SIDE KITCHEN.

A Smart-Tower refrigerator (142 l), a hinged worktop extension and, on request, kitchen wall cladding and many additional sockets throughout the vehicle. Shown here in the Noce Cognac furniture finish, the large side kitchen in the ML-T 580 includes deep kitchen drawers, which are slanted to increase the size of the passageway, and easily accessible overhead lockers.

AMPLE SEATING.

Thanks to the 360° rotatable table, which can be adjusted both lengthways and crossways, the Comfort L-shaped seating area in the ML-T 580 can accommodate up to 4 people, while in the 620 model there is room for 5 people – shown here in the Noce Cognac furniture finish and Cristallo fabric combination.

ELEGANT LIVING AREA.

Planning the day ahead or simply relaxing – ideal uses of the stylish seating area, shown here in the agile ML-T 570 as an L-shaped seating area in the modern Chiavenna Walnut furniture finish with Creola imitation leather.

A LINEAR AESTHETIC COUPLED WITH MODERN CHARM.

COMFY SLEEPING OASIS.

The comfortable single beds in the ML-T 570, 580 and 620 are also available with our comfort sleeping system, which includes a sprung mattress and HYMER fitted sheets. On request, the single beds can be converted into a giant sleeping oasis via an additional cushion.

GENEROUS STORAGE SPACE FOR YOUR CLOTHES.

Ample space is provided for your clothes thanks to a large wardrobe under the hinged foot section of the single bed and an additional floor-to-ceiling wardrobe – in the ML-T 580 and 620.

TASTEFUL DOWN TO THE LAST DETAIL.

The beautiful and spacious comfort bathroom in the ML-T 580 offers a separable shower, a comfortable bench toilet, a high-quality washbasin made of "Cool Glass" and plenty of practical storage space.

HYMER B-Class ModernComfort
A NEW GENERATION
HITS THE ROAD.

The successful partnership between Mercedes-Benz and HYMER has resulted in vehicles that are exceptionally innovative, safe and light. As the world's first motorhome, the new B-Class ModernComfort impresses with a combination of the new Sprinter chassis cowl from Mercedes-Benz and Hymer's internally developed, award-winning SLC chassis.

Thanks to its extremely lightweight yet sturdy construction, enhanced safety features and outstanding ride comfort, this sporty-elegant motorhome ensures you are always one step ahead – safely below the 3.5-ton limit and with a level floor in the living area.

Additional layouts are shown on page 52/53.

SUPERIOR CLASS

FEEL AT HOME ON THE ROAD.

MODERN AMBIENCE.

Relaxing as a couple or enjoying time with friends? You can do both in the spacious seating group with the Delfi fabric combination and Noce Cognac furniture finish. In addition, the modern LED lamps let you create your own individual lighting mood.

FEEL GOOD RIGHT FROM THE START.

A recess in the rear wall of the washroom allows a 32-inch LED TV to be harmoniously incorporated into the overall design of the ModernComfort 580's living area. The driver and passenger seats afford an excellent view of the TV, which can even create a "fireplace feeling" if desired. The bed with optional 2.15 m bed surface is visible in the background – shown here in the Grand Oak furniture finish and with the Janeiro fabric combination.

COOKING HAS NEVER BEEN SO MUCH FUN!

The Noce Cognac furniture finish lends the interior of the B-Class ModernComfort a modern, fresh and high-class ambience. The result is an impressively open and generous sense of space, since all areas can be optimally utilised. Thanks to the standard 142 l refrigerator, integrated rubbish bin in the kitchen and practical worktop extension, small snacks and large menus can both be prepared easily and conveniently.

COMFORT FROM HEAD TO TOE.

EXTRA SPACE, EXTRA WELL-BEING.

The comfort bathroom in the B-Class ModernComfort 580 stands out thanks to a large separable shower, a comfortable and easy-care bench toilet, and a wide standing area in front of the modern, easy-to-clean washbasin.

COMFORTABLE FOLD-DOWN BED.

The B-Class ModernComfort integrated motorhomes include a wide, comfortable fold-down bed above the cab which lowers right down and is firmly supported in the sleeping position, so that nothing gets in the way of a restful night's sleep. The fold-down bed can be optionally extended to form twin beds via pullouts.

HOW ABOUT A LITTLE EXTRA?

Good news for taller travellers: the twin beds in the 580 layout are available in a length of 2.15 m on the right-hand side in addition to the traditional size of 192 cm by 86 cm. An extraordinary feature in a vehicle with an overall length under 7 m – and there is still room for the half-height wardrobe and additional linen drawer. The overhead lockers in the rear embody the vehicle's new design language.

SAFE FROM TOP TO BOTTOM.

The rear bed, which has been converted into a giant sleeping oasis, can be reached – and exited – conveniently and now even more safely via the new fold-out steps. The generous comfort steps are equipped with a non-slip coating to match the floor.

THE LUXURY CLASS
THINK BIG.
TRAVEL BIGGER.

LUXURY CLASS

While on holiday, do you want to enjoy home comforts with no compromises? Welcome to the HYMER elite! Here you'll find everything necessary to satisfy the highest standards: maximum space, maximum equipment and maximum well-being.

HYMER B-Class SupremeLine

LUXURY WITHOUT COMPROMISE. ESPECIALLY WHEN IT COMES TO STYLE.

Welcome to the elite of modern motorhoming – with the exclusive B-Class SupremeLine. With a length of up to 7.79 m and an incredible amount of equipment on board, it offers the independence, comfort and appearance of a Liner. Notable among the many special features of this model range are its spacious interior, excellent ease of movement and first-rate standard equipment package complete with large rear garage. With the B-Class SupremeLine, you can enjoy comfort and self-sufficiency in equal measure!

WHEREVER YOU GO, TAKE ENJOYMENT WITH YOU.

COMFORTABLE SEATING.

The seating in the B 704 SL, pictured here, is upholstered in Napoli leather. The motorhome can be optionally equipped with front cupboards instead of the fold-down bed – for even more roominess and storage space.

INTELLIGENT STORAGE.

As well as large Servo soft-close drawers, the B 704 SL is equipped with a half-height kitchen cabinet with larder unit, which is ideal for storing provisions and kitchen utensils.

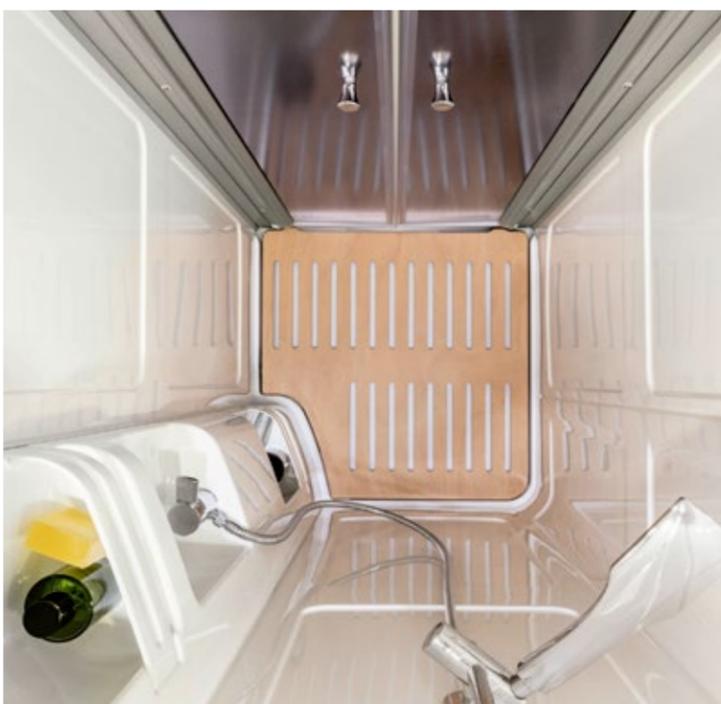

LONG BENCH SEATS.

The comfort seating area in the B 704 SL comprises a large L-shaped bench seat with an extra-wide opposing bench seat – optionally available in Napoli leather. The optional high-quality, round table can be pulled out easily to create additional room for guests.

HANDY PULL-OUT SHELF.

Above the sink there is an extremely handy pull-out shelf for kitchen appliances, equipped with its own 230 V socket. On request, the kitchen is also available without a pull-out shelf.

HEAD TO THE ENDS OF THE EARTH. AND THEN START ALL OVER AGAIN.

TASTEFUL, DOWN TO THE LAST DETAIL.

A wealth of attractive and practical details lend the bathroom of the B 704 SL a pleasant, welcoming atmosphere. These include the high-quality washbasin in luxurious "Cool Glass" – shown here in the dark Velvet Ash furniture finish.

SEPARABLE AREAS.

Enjoy a shower with a large standing area that is not obstructed by the wheel arches. In addition, the large bathroom can be screened off at the front and rear to create a dressing room.

SINGLE BEDS OR SLEEPING OASIS.

The two generously proportioned single beds in the rear of the B 704 SL and B 674 SL are 200 cm long and can be extended as standard to create one extra-large bed surface. A generous wardrobe is concealed below the foot of the right bed.

HYMER B-Class MasterLine

AS UNIQUE AS YOUR JOURNEY.

Mount Everest. The Eiffel Tower. The Mona Lisa. Some things are so unique that they redefine an entire genre. HYMER is one of them. Through over 60 years of hard work, we have ensured that our name is not only a guarantee of quality and technical know-how, but also a synonym for the motorhome itself. With the new B-Class MasterLine, we have created a vehicle that truly lives up to this claim. Treat yourself to the journey of a lifetime – in the HYMER among motorhomes.

HOME FROM HOME.

PERFECT IN EVERY DETAIL.

Thanks to the Duo-Core upholstery concept with LoungeComfort system, the generous L-shaped seating area is so comfortable it is almost certain to become your favourite spot. It also features a drawer as standard and blends harmoniously into the kitchen area.

OUTSTANDING DESIGN.

A feast for the eyes. Rather than dividing the interior into separate room elements, we have instead created a spatial flow that is cleverly enhanced by our new lighting concept. This makes the interior appear roomier and more spacious than ever.

FOR A RELAXED BREAKFAST.

Thanks to the Duo-Core upholstery concept with LoungeComfort system, you are guaranteed to sit comfortably anywhere in the world – especially on long journeys.

GOURMET KITCHEN ON WHEELS.

The extra wide kitchen is heaven for those who enjoy cooking. The kitchen comes as standard with deep drawers and Servo soft-touch closing mechanisms, integrated kitchen wall panelling, the optional hybrid cooker and a generous work surface – and makes cooking an experience in its own right.

YOUR SANCTUARY – ANYWHERE IN THE WORLD.

LIKE SLEEPING ON AIR.

For the perfect night's sleep, the bedroom of the new B-Class Master-Line offers two extremely comfortable beds that are over 2 m long and 89 cm wide. Available as standard with our comfort sleeping system, they can also be converted into a large bed surface on request.

SAFEGUARDING YOUR PRIVACY.

The bathroom features a separate shower cubicle with up to 1.94 m of headroom, which can be easily separated from the living area by closing the intermediate door. Thanks to real glass doors it provides some genuine home comfort.

HYMER ORIGINAL PARTS.

A perfect match.

Discover our wide range of innovative solutions that are available in the categories interior, exterior, chassis system, travel and transportation. With HYMER original accessories, you can rest assured you've made the right choice – for a perfect fit, impeccable workmanship and original quality. HYMER original accessories are not available direct from

the factory, but are instead ordered and retrofitted exclusively via your HYMER dealer. You can find our full range of accessories on the internet at: www.hymer-original-zubehoer.com/en

REAR VISION

The E-Connect system lets you conveniently view the most important data about your motorhome, such as the current vehicle orientation or tyre pressure, via the E-Trailer app on your smartphone.

ANTI-THEFT TRACKING AND VEHICLE MONITORING

Effectively safeguard your vehicle against theft – thanks in part to the Europe-wide service network of our partner Vodafone. The "My Connected Car" app can do even more: manage geofencing, Car Finder, etc.

STAY WARM, FEEL GOOD

A bed that keeps you at the perfect temperature is a must for a relaxing and sound night's sleep. The electric blanket simply needs to be connected to a 12-volt socket, which means it can be conveniently used when on the road.

ALL ABOARD ...

The extendable loading box is mounted in the floor storage compartment. This allows objects to be conveniently removed and also enables access from the vehicle's interior. Compatible with selected vehicles – in different widths depending on the model.

AN INVITATION TO DREAM AWAY!

Restful sleep is a basic human need. The high-quality slumber package consists of our premium functional duvet, height-adjustable functional cushions and Estella bed linen in the Migratory Birds or Paisley furniture finish including decorative cushions.

A PERFECT FIT

Custom-made high-quality cab carpet made of polypropylene tufted velour with edging in a nubuck design. The carpet is secured against slipping and is additionally equipped with a heel guard.

THE HYMER E-BIKE – THE NEXT GENERATION

The HYMER E-Bike by FLYER begins its second life. Completely revised, it boasts an extremely modern and tidy appearance. The generous equipment and whisper-quiet Bosch motor are just as impressive as the 500 Wh battery integrated into the frame. The result is an e-bike that is perfectly adapted to the needs of campers. The warranty services are also unique and include 5 years' cover on the motor, display and related electronics.

BE FIRST IN THE QUEUE AT THE BAKERY IN THE MORNING

THE-URBAN HMBRG is the first electric scooter from HYMER. It is sure to be your faithful and beloved companion at any holiday destination. Whether popping out for bread in the morning, buying some groceries in the next town, or even just heading to the washhouse – from now on, everything is guaranteed to be twice as much fun. There is simply no cooler way to get around – naturally, it is 100% road-legal and approved.

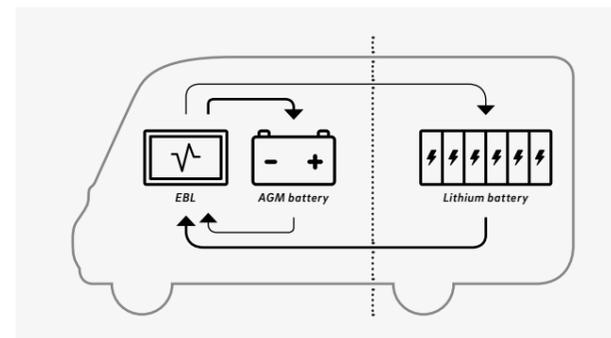

HYMER ACCESSORIES FOR THE KITCHEN RAIL

The factory-installed rail in the HYMER kitchen can be supplemented with the following products: hanging hooks, a kitchen roll holder, a spice rack and a coffee capsule holder.

BIKE CARRIER

With the HYMER Bike Carrier it has never been easier to transport bicycles in your motorhome's garage. The bicycles are simply pushed forward into the basic holder and secured by means of a holding bracket. The Bike Carrier's special feature is its extremely small footprint – and the fact that no guide rails are needed on the floor.

SELF-SUFFICIENCY PAR EXCELLENCE

The HYMER Smart Battery System gives you the advantages of two battery technologies (AGM + LI) and consequently extends your self-sufficiency from an average of 1.5 days to 5.5 days, while also increasing the life of your battery from 3 to 10 years. Available in blocks of 6 or 2.

MULTIMEDIA PACKAGE

Upgrade package specifically designed for the Mercedes-Benz Sprinter, consisting of the Zenec N 956 (with 3 years of map updates and FreeOn-Tour integration) and the double reversing camera, which is integrated in the third brake light. Includes a radio switch to operate the system without starting the engine.

LIKE SLEEPING ON AIR

The visco-elastic memory foam specially developed for the HYMER mattress topper is air-permeable and reacts to even the lightest weight, moulding perfectly to your body.

MADE TO MEASURE

You can tell an original HYMER fitted sheet from its optimal fit. Available for all bed versions. The cover is pleasantly soft to the touch and washable at 60°C.

WINDSCREEN COVER

Cover made from ultra-light, weather-resistant PVC-coated mesh fabric for sun protection and privacy. Fits perfectly and looks great.

FOR YOUNG SLEEPYHEADS

Measuring 160 x 70 cm, the HYMER children's bed provides an extra berth and can be easily fitted in the Fiat Ducato and Mercedes-Benz Sprinter cab.

WELL COVERED

You can tell an original HYMER seat cover by its optimal fit. These machine-washable protective covers include a pocket at the back and are available in beige and graphite.

REST EASY

Sleep safe and sound thanks to this unique anti-burglary system. The sensor detects people loitering within one metre of the entrance door. This alarm system has been developed to minimise the likelihood of a break-in and to warn the occupants in case of emergency.

DOG BED

The tailor-made HYMER dog bed in high-quality imitation leather comes with a fleecy cushion and a non-slip cover on the underside. Fits perfectly into most motorhomes.

SAFETY AND COMFORT

The space-saving HYMER aluminium dog box is available in two sizes and is simply fastened to the seating bench with its specially designed strap system.

TRAVEL IS ALWAYS IN FASHION

Enjoy being active and discovering new places? Wherever your journey takes you – HYMER has the perfect outfit.

HAPPY HOLIDAYS, GUARANTEED.

With the Erwin Hymer Group (EHG) warranty for new vehicles – in partnership with CG Car-Garantie Versicherungs-AG.

The purchase of a motorhome or caravan is something truly special. It gives you the freedom to travel independently whenever and wherever you want – your home will always be with you. We want you to enjoy carefree days and weeks in your holiday home on wheels.

unwelcome financial surprises – even after the end of the warranty period. You can request the warranty for 12, 24 or even 36 months from your authorised dealer. In the case of the EHG extended warranty for new vehicles, Car-Garantie will be liable for the full labour and material costs in the event of a warranty claim – even if your vehicle suffers multiple instances of damage, naturally. There is no excess to pay.

This also means giving you peace of mind at all times. With the EHG warranty for your motorhome / caravan, you are fully protected against unexpected repair costs. Even with a faultless vehicle, there is always the possibility of damage further down the road.

- Comprehensive coverage of repair costs
- Valid throughout Europe
- Liquidity protection in case of repair
- Exclusive use of original parts
- Increases the value of your vehicle

Get started today! When it comes to your motorhome / caravan, the EHG extended warranty for new vehicles reliably protects you from

	12 months	24 months	36 months
	Price overview*		
Motorhome Vehicles with permissible laden mass up to 4.5 t	€ 549.00	€ 999.00	€ 1,499.00
Caravan	€ 229.00	€ 439.00	€ 699.00

Should you decide to buy a used motorhome, the EHG also offers the ideal product – our used vehicle warranty. Please ask your authorised HYMER dealer for details.

*As of 06/19: recommended retail price include statutory VAT.

Note: The extended warranty is offered by CG Car-Garantie Versicherung AG, Freiburg, in accordance with the applicable warranty terms and conditions.

THE HYMER SUPER LIGHT CHASSIS (SLC).

FRESH WATER AND WASTE WATER TANKS

With large capacity (180 l fresh water, 150 l waste water) for greater self-sufficiency – heated, insulated and 100% winter-ready

THERMAL COMPARTMENTS IN THE DOUBLE FLOOR

With a single-level loading compartment of up to 70 x 24 cm (W x H) with access from both sides, up to 1,000 l of total storage volume and a raised floor height of 36 cm

REDUCED WEIGHT

With increased maximum payload thanks to high-quality lightweight construction – 16% lighter than a conventional chassis

LOW CENTRE OF GRAVITY

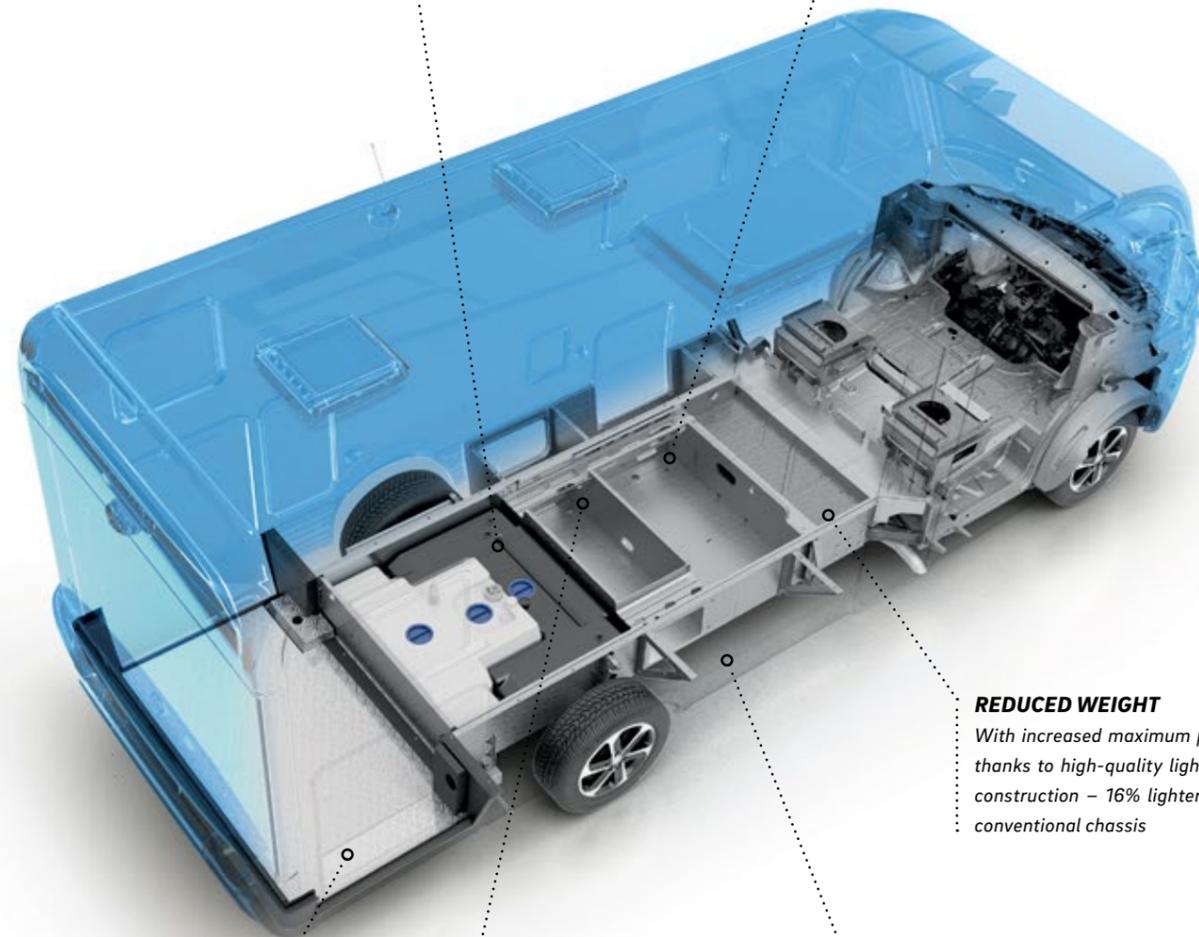

With uniformly level underbody for reduced body roll, high driving stability and minimal driving noise

HEATER IN THE DOUBLE FLOOR

Is now much quieter thanks to its location and protects the tanks against extreme temperatures

GRP GARAGE CASING FOR HEAVY LOADS

Can carry up to 450 kg with a storage volume of up to 3,800 l

HYMER PUAL 2.0

GAPLESS ELASTIC BONDING OF ROOF AND WALLS

For outstanding stability and torsion resistance that prevents ingress of water and moisture

STATE-OF-THE-ART DESIGN WITH NO THERMAL LOSS

Thanks to the inner and outer skin made from polyurethane foam and aluminium, which combines extreme longevity with a lower overall weight

WINTERPROOF WITH EXCELLENT THERMAL INSULATION VALUES

A 34 mm PUAL wall is equivalent to an 80 cm-thick solid brick wall

EXCELLENT INSULATION VALUES

Perfect winter performance due to even and fast heat distribution

Note: some of the equipment shown is optional and depends on the model range/layout.

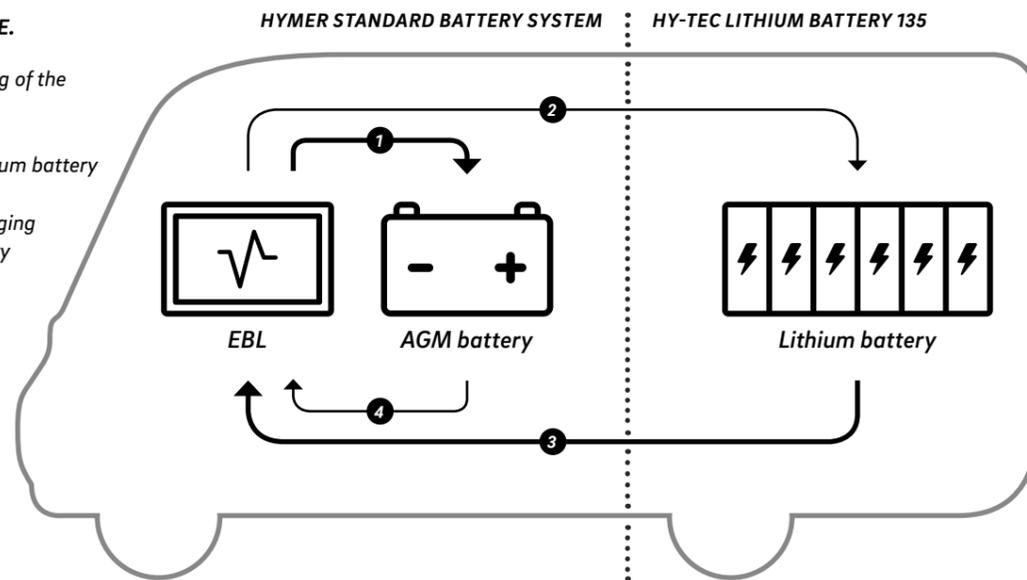

EVEN GREATER AUTONOMY WHEN TRAVELLING.

HYMER Smart Battery System.

Operating principle: The HY-Tec lithium battery 135 consists of six individual LE300 lithium extension battery modules, which increase the capacity and performance of the lead batteries while also increasing the efficiency and service life of the overall system. The lithium batteries perform the majority of the charging cycles, while the lead batteries function as backup storage devices. The system ensures that the lead batteries are always charged first (1. Preferential charging of the lead battery). Any excess energy is then stored by the lithium batteries (2. Charging of the lithium battery). Conversely, when power is consumed, the lithium batteries are discharged first, which significantly increases the lifespan of the lead batteries (3. Preferential discharging of the lithium battery). The integrated discharge management ensures that the on-board power supply system is preferentially powered by the cycle-proof lithium batteries. With increased power consumption, the lead batteries are switched on to reduce the demands on both batteries (4. Discharging of the lead battery).

CHARGING PROCEDURE.

- 1 Preferential charging of the lead battery
- 2 Charging of the lithium battery
- 3 Preferential discharging of the lithium battery
- 4 Discharging of the lead battery

ALL THE ADVANTAGES AT A GLANCE.

Exclusive product: Perfectly adapted for HYMER vehicles.

Increased battery life: From approx. 3 years to approx. 10 years.

Weight savings: The 6-block offers a 5 kg weight saving with almost three times the usable capacity of a conventional second AGM 95 Ah living area battery. The 2-block brings a weight saving of around 20 kg, whereby the external dimensions of the LI battery are around 1/3 of the size of an AGM battery and provide the same usable capacity as 2 x AGM battery 95 AH.

Completely winter-proof system: With excellent advantages, especially when exposed to sub-zero temperatures as the LI battery accepts charge from the very first second, while at the same time the integrated heater warms the HY-Tec LI battery to a temperature of 10°C to enable fast charging.

Improved safety: The HY-Tec battery is a lithium iron phosphate battery (LiFePO4). This means that overheating or combustion are not possible!

Improved economy: A relatively inexpensive introduction to the world of LI batteries as the existing AGM battery can continue to be used.

Certified quality: The HY-Tec LI battery is ECE-approved has been tested by the TÜV for temperature fluctuations and vibrations.

Made in Germany: The HY-Tec LI battery is manufactured in Germany.

20 KG LESS WEIGHT WITH THE SAME CAPACITY*

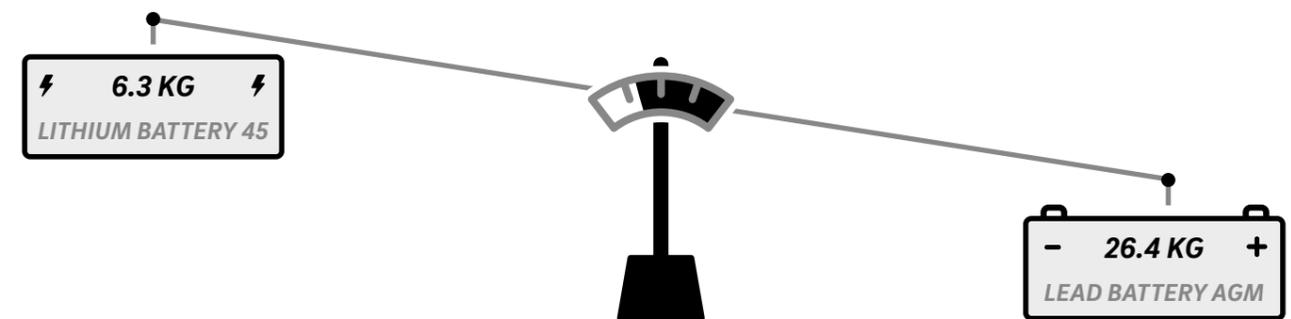

WINTER-PROOF SYSTEM THANKS TO INTEGRATED HEATER

EXTENDS THE SERVICE LIFE UP TO 10 YEARS

3-YEAR WARRANTY

NEW 2-BLOCK

Perfect upgrade expansion: The HY-Tec 45 2-block is an excellent choice for customers who want to retrofit a second battery to increase the available capacity. Compared to retrofitting another AGM battery, the existing lead battery (AGM) can continue to be used and does not need to be replaced**. An optimal solution – even when replacing the AGM batteries due to wear. For more information, visit www.hymer.com

*HY-Tec lithium battery 45 compared to one 95 Ah AGM.

**Provided that this is not completely defective. Your HYMER dealer will be happy to advise you on this topic.

CLEVER DESIGN MEETS PREMIUM QUALITY.

Modern solutions from HYMER.

DESIGN

We pay special attention to the design of every single component of our motorhomes to ensure that each detail corresponds to our overarching design philosophy. This means that travelling in a HYMER is now an even more comfortable, relaxed and luxurious experience – thanks to the innovative and high-quality design, LED lights in the living area, specially developed headlights and fog lights as well as the elegant furniture concept with double-stitched felled seams made from extra thick Serabraid yarn. Perfect for your next trip – wherever it takes you.

OUTSTANDING DESIGN QUALITY

HYMER received yet more awards in 2019: the B-Class ModernComfort I was honoured three times, winning the Red Dot Design Award, the German Design Award and the European Innovation Award in the overall motorhome concept category.

QUALITY

For our customers, every HYMER model is the perfect home from home. When it comes to ensuring that you will also share this feeling, only the best will do. We always strive for absolute perfection – from our fabrics and imitation leathers, which we source exclusively from renowned German manufacturers and trusted weaving mills in other European countries, to uniform panel gaps and perfect craftsmanship of all components, not to mention our premium materials. This is yet another reason why we not only rely on the usual ISO standards, but have also developed numerous internal test procedures over the years to ensure that each of our models is characterised by outstanding quality. These include noise tests, vibration tracks, cold chamber tests, shower tests, cooker tests, as well as inspection of the storage space doors and the tightness of the various assemblies. We do all of this to ensure that every detail lives up to our customers' expectations – so that nothing stands in the way of your trip of a lifetime.

ICON LEGEND.

Everything at a glance.

DRIVER-ACTIVATED FOUR-WHEEL DRIVE

An optional, driver-activated four-wheel drive system with greater traction, improved driving stability and the latest generation of ADAPTIVE ESP® means you can master every challenge in all weather and road conditions.

ENTRANCE DOOR

The 65 cm entrance door is particularly generous and functional, providing comfortable access to your motorhome.

FACE-TO-FACE SEATING AREA

This seating area allows the passengers to sit directly opposite one another; the table folds away to allow access to the cab.

FRONT-WHEEL DRIVE

The front-wheel drive system is much lighter than its rear-wheel drive counterpart, which reduces the overall weight of the vehicle and allows a larger payload. The front-wheel drive is available with 6-speed manual or 9-speed automatic transmissions.

GARAGE LOADING CAPACITY

With a loading capacity of up to 450 kg, the garage can accommodate a vast amount of travel equipment, such as numerous bicycles and e-scooters.

GRP

Due to the indestructible GRP coating – for example, on the roof, rear and underbody – your HYMER is virtually immune to weather-related damage, stone impacts, road salt and dirt.

HEADLIGHTS

The HYMER LED headlights and hybrid rear lights not only meet automotive standards but also provide increased safety day and night thanks to their optimal light patterns.

LARGE GARAGE

The garages of HYMER motorhomes include a garage door on both the left and right side as standard (available as an option for the Exsis 580 and T-Class S). This means the garage can be loaded from both sides and offers plenty of storage space – for example, for your e-bikes and e-scooters.

LEVEL THROUGHOUT

Thanks to the double floor, the vehicle also boasts a level living area floor – from the cab right through to the rear. This makes it ideal for older motorhome enthusiasts, who need no longer worry about tripping hazards.

MANOEUVRABILITY

The manoeuvrability of your small, compact motorhome is a great advantage, especially when searching for a parking space or negotiating ferry crossings, car parks and narrow passages.

PUAL BODY SHELL

In 1978, HYMER set new standards with its innovative PUAL design. The excellent insulation provided by the unique polyurethane foam guarantees a comfortable temperature all year round. Find out more about this topic on page 61.

REAR-WHEEL DRIVE

Thanks to its powerful rear wheel drive, the HYMER displays smooth, superior handling in all traffic situations – and an extremely comfortable ride into the bargain.

SHOWER

By housing the wheel arches inside the double floor, we were able to design the shower with a significantly larger level floor.

SLC CHASSIS

Our internally developed super-light chassis is specially adapted to your motorhome's specifications. The completely level underbody improves the vehicle's aerodynamics and reduces noise levels. The raised, heated double floor offers extra storage space and can be accessed from both sides. Find out more about this topic on page 60.

TANK CAPACITIES

Thanks to their large volume, the fresh water and waste water tanks ensure even greater self-sufficiency while on the road. They are also heated, insulated and 100% winter-ready.

3.5-TON CLASS

For a motorhome weighing up to 3.5 t, you are good to go with a Class B driver's licence. The vehicle is treated just like a car when it comes to speed limits, traffic regulations, tolls and vehicle tax.

NOTE

This brochure describes the series status at the time of publication. Despite careful checking of the contents, misprints cannot be ruled out. We reserve the right to modify the equipment or make product improvements during the course of the model year. Before signing a sales contract, please ask one of our authorised HYMER dealers about the current product and series status.

Some vehicles include optional extras which are quoted in the current price list and available at extra cost. The decoration shown is not supplied by HYMER. The details of the scope of delivery, appearance, performance, dimensions and weights are valid at the time of going to press – deviations within the factory tolerance limits (max +/-5%) are possible and permissible.

This data complies with European homologation regulations, which may change up to the time of vehicle purchase or delivery. Your HYMER dealer will gladly provide you with information on any changes and the standard scope of delivery.
